Dimensions in mm. Information on materials, colours, drawings and use of our articles can be found on pages 166/167.

Our product advantages at a glance:

3D printing.

First production-ready, utility model-protected protective cap produced using the 3D printing process.

Better fit.

Optimum fit and clamping for GPN 735 and GPN 737 sealing plugs during the coating process.

Better.

Diameter A prevents the inadvertent assembly with a quick connector.
