

THE PÖPPELMANN EFFECT:

Fully protected.

NEW Tray

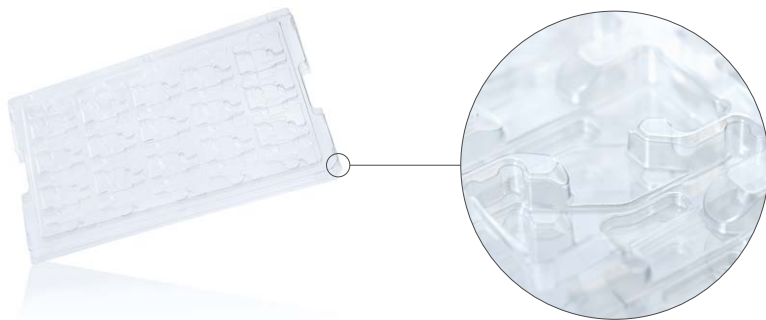

produced by using the
thermoforming process

We do it.
More individualized.

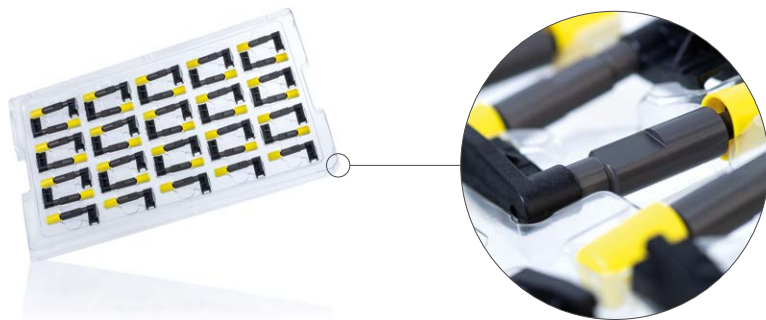

NEW Trays for the safe transport of your products.

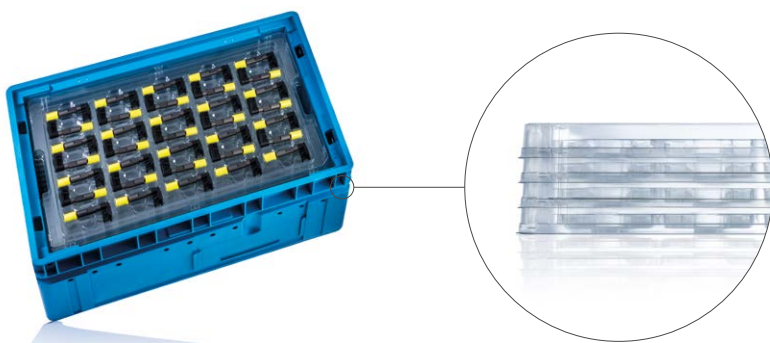

As a specialist for protection solutions, we have expanded our product range: In addition to our standard range with over 3,000 protection elements, we now offer thermoformed trays for the protection of sensitive components. Because of our advanced machine and tool concept, we can implement solutions easily and efficiently within the shortest possible time. This gives you efficient packaging concepts as a complete solution – for optimal handling during transport, storage and production.

Tray produced by using the thermoforming process.

Tray with customer component and mounted KAPSTO® protective cap.

Stacked trays in a returnable container.

Many advantages for your complete protection.

Profit from the many advantages of Pöppelmann KAPSTO®: We work together to ensure your success, day after day. Our competent project teams with 40 years of experience in the thermoforming process provide the best possible protection for your products – from selecting the best materials to maximizing density of the components in the tray.

Development partner

- ⊕ KAPSTO® is a one-stop provider: from the idea to series production.
- ⊕ Quotation and development concept within one day.
- ⊕ Rapid Prototyping using printed trays.

Resource conservation

- ⊕ Use of recycled materials on request.
- ⊕ Possibilities for In-House recycling.
- ⊕ Your specialist for material cycles through our company-wide initiative PÖPPELMANN blue®.

Material variety

- ⊕ In-House foil production.
- ⊕ Color and material selection according to customer requirements.
- ⊕ Optional ESD protection possible.

Quality management

- ⊕ Technical cleanliness on request.
- ⊕ Certification according to DIN ISO 9001:2015.
- ⊕ Highest quality requirements for customers with specific requirements (e.g. from the automotive or electrical industry).

Did you know how well caps and plugs and thermoformed trays fit together?

Protective caps and plugs from our KAPSTO® standard range also provide optimal protection for your product. In some applications, they are used in combination with trays.

We deliver all solutions around your product protection from one source. Request samples for testing and selection of possibilities – of course without obligation and free of charge:
